"CRIME IN COLORADO - 1990"

Crime statistics in Colorado continue to reflect a gradual decline in overall criminal activity. However, we must temper this good news with our own realization that drug activity, gang violence and general acts of a violent nature are still far too prevalent in our communities.

Law enforcement in Colorado has made a long term commitment to education, prevention and enforcement. We all believe that strong and professional law enforcement is our ultimate solution for providing safe neighborhoods and communities. Obviously, we have made progress, but the road is long and slow. Together, we will continue to impact crime and "serve and protect" the communities in which we reside.

Let's continue to make Colorado a safe, crime-free and drug-free place to live. With the combined commitment of law enforcement working with communities, it is a possible dream.

March, 1991

The Colorado Information Management Commission (IMC) recommended to the Legislature during 1989 and again during 1990 that we replace our Crime Information Center (CCIC) computer as well as our Automated Fingerprint Identification System (AFIS), with state of the art technology. This is a landmark time for criminal information systems in the history of Colorado law enforcement.

Thanks to our Legislature, the new systems will be in place in 1992, assuring momentary response to requests concerning fugitives, stolen vehicles and missing children. Using the new AFIS, for the first time in Colorado history we will keep current within seventy two hours of our arrest fingerprint processing. Timely, comprehensive and more detailed statistics about hate crime, drug crime and violent crime will be available in every Colorado county.

The continuing spirit of cooperation among criminal justice executives and their determined support of the CCIC program have made this level of progress possible. We are indebted to them for their work, and for their contribution to this annual report of Crime in Colorado.

IN MEMORIAM

Lt. Cecilia M. Benefiel

El Paso County Sheriff's Department
Killed in the Line of Duty:
November 18, 1990

On the afternoon of November 18, 1990 deputies from the El Paso County Sheriff's Department discovered the body of Lt. Benefiel in her Colorado Springs home. She was still dressed in her uniform and it is believed that Lt. Benefiel was shot and killed shortly after completing her tour of duty on November 16, 1990.

Courage knows no limits. It is not bound by a persons age or sex or race. Courage is a spirit that is at home in the hearts of brave men and women everywhere.

This book is dedicated to all the brave men and women who serve our society at the risk of making the supreme sacrifice.

INTRODUCTION

Two-hundred fifty-six law enforcement agencies reported crime statistics to the Colorado Bureau of Investigation during 1990. This included 62 sheriff's departments, 194 municipal and other local agencies, plus the Colorado State Patrol and the Division of Wildlife.

The on-line incident by incident phase of the State Crime Statistics Program included 123 of the above agencies. This direct input is supplemented by the entry of the hard copy summary reports by the CBI staff. The statistics are collected and stored in the Colorado Crime Information Center (CCIC) computer.

Agencies reporting Part II offenses to the CBI via CCIC receive monthly and annual summary reports from the CBI concerning those Part II incidents.

TRAINING ASSISTANCE

The CCIC staff provides continuing quality control, monitoring, and training assistance to the personnel of over 250 criminal justice agencies statewide. This assistance insures that accurate, complete, and properly classified crime information is identified, recorded, and reported.

Files maintained relate to crime, arrests, arrest disposition, fugitives, and stolen and/or recovered property. The CCIC staff also assures proper use by over 2,000 CCIC terminal operators of the state and national law enforcement telecommunications systems.

COLORADO

INDEX OFFENSE DEFINITIONS

1. **Criminal Homicide** – The willful killing of one human being by another.
2. **Forcible Rape** – The carnal knowledge of a female forcibly and against her will.
3. **Robbery** – the taking or attempting to take anything of value from the care, custody, or control of a person or persons by force or threat of force or violence and/or putting the victim in fear.
4. **Assault** – The unlawful attack by one person upon another. **Aggravated Assault**-An unlawful attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury. This type of assault is accompanied by the use of a weapon or by means likely to produce death or great bodily harm.
5. **Burglary** – The unlawful entry of a structure to commit a felony or a theft.
6. **Larceny-Theft** – The unlawful taking, carrying, leading, or riding away of property from the possession or constructive possession of another.
7. **Motor Vehicle Theft** – The theft or attempted theft of a motor vehicle.
8. **Arson** – Any willful or malicious burning or attempt to burn, with or without intent to defraud, a dwelling house, public building, motor vehicle, aircraft, or personal property of another.

THE INDEX OF CRIME

The crime index consists of the seven most commonly reported offenses which compose the Part I crimes: murder, forcible rape, robbery, aggravated assault, burglary, larceny-theft and motor vehicle theft. (Excludes "manslaughter by negligence and simple assaults"). The tabulations on the following pages present a summary picture of Part I crimes for the State of Colorado. Reference to the Uniform Crime Reporting definitions of each of these crimes should be made for a more precise understanding of what kinds of criminal activity these statistics represent.

The seven index crimes are also divided into two groups to enable further analysis. The categories and their components are:

VIOLENT CRIMES
Murder
Forcible Rape
Robbery
Aggravated Assault

PROPERTY CRIMES
Burglary
Larceny-Theft
Motor Vehicle Theft

During 1990 the actual number of offenses reported decreased by .5 percent. However, due to the population decrease, the rate of violent crimes and property crimes increased. Based on the 1990 estimated Colorado population of 3,294,394, the crime rate rose 1.5 percent while the number of reported offenses decreased by .5 percent. The chart below and the chart on page 4 reflect those changes.

Summaries by Jurisdiction

The following pages summarize crime reported by type of offense, by reporting jurisdiction. If an agency name is missing, or if no reported crime is shown, it is because either no reports were received from those agencies, or they reported through their sheriff's offices.

Caution should be used when comparing one county's figures against anothers. There are eleven cities in Colorado that are in two or more counties. Obviously crime may occur throughout the city limits and in all counties effected. For reporting purposes however, the agencies totals are included under only one county. Following are the cities which cross county lines; next to each city is the county within which it is counted for statistical purposes.

PROPERTY STOLEN AND RECOVERED

★ ★ ★ ★ ★ ★

Summaries by Jurisdiction

The next 32 pages reflect county-wide summaries of the value of property stolen and recovered. Each county report includes figures from all agencies in the county that made reports. The law enforcement agencies participating in the crime reporting program have total figures for their respective jurisdictions.

Caution should be used when comparing one county's figures against anothers. There are eleven cities in Colorado that are in two or more counties. Obviously crime may occur throughout the city limits and in all counties effected. For reporting purposes however, the agencies totals are included under only one county. Following are the cities which cross county lines; next to each city is the county within which it is counted for statistical purposes.

COLORADO ARREST DATA

Submitting agencies are required to report monthly the number of arrests made for offenses committed within their jurisdictional limits.

There is no direct correlation between persons arrested, the number of offenses reported or the number of offenses cleared. Several persons could be arrested for the same offense or the arrest of one person may clear several offenses. A person is counted only once each time arrested. Therefore, if a person is arrested but wanted for several crimes within the same jurisdiction, he or she would be scored only once for the most serious crime in accordance with the hierarchy rule. The same process is applicable whether the arrestee is adult or juvenile.

Volume and Rate

Reported arrests in Colorado totaled 251,265 for Part I and Part II crimes in 1990. This represents a 3.7% increase over 1989. There were 7,627 arrests per 100,000 persons in 1990 as compared with 7,210 per 100,000 persons in 1989. Part I arrests accounted for 19.2% of the total arrests. Of those Part I offenses, Larceny-Theft comprised the greater portion with 66.3%. The greatest percentage of Part II arrests were for All Other Offenses (except traffic,) 21.7%, followed by Driving Under the Influence, 15.7%. During 1990, arrests for violent crimes (Murder), Forcible Rape, Robbery and Aggravated Assault) accounted for 18.8% of all Part I arrests and 3.6% of the total arrests.

Arrests by Age

The number of persons under the age of 18 (Juveniles) arrested during 1990 increased 7.2% over 1989. Arrests of juveniles for Part I crimes increased 9.9% compared to 1989. The number of persons over the age of 18 (Adult) arrested during 1990 increased 2.9% from 1989. Arrests of adults for Part I crimes increased compared to 1989.

Arrest by Sex

Of the 251,265 total arrests in 1990, the greatest percentage of arrests were male, 77.7%, an increase of 3.7% from 1989. Females accounted for the remaining 22.3% of the 1990 arrests.

ARRESTS REPORTED

★ ★ ★ ★ ★ ★

Summaries by Jurisdiction

The following pages summarize crime reported by type of offense, by reporting jurisdiction. If an agency name is missing, or if no reported crime is shown, it is because either no reports were received from those agencies, or they reported through their sheriff's offices.

Caution should be used when comparing one county's figures against anothers. There are eleven cities in Colorado that are in two or more counties. Obviously crime may occur throughout the city limits and in all counties effected. For reporting purposes however, the agencies totals are included under only one county. Following are the cities which cross county lines; next to each city is the county within which it is counted for statistical purposes.

CRIMINAL HOMICIDE-SPECIAL SUPPLEMENT

Criminal homicide is defined as the willful killing of one human being by another. It is the one offense in the Uniform Crime Reporting Program for which detailed information is received for each reported offense. This type of data collection permits the analysis of homicides in terms of characteristics of the victims, the offenders, and the circumstances surrounding each offense. The benefits of this type of analysis are apparent. Namely, simple offense counts are complimented with the examination of complicated interrelationships ultimately producing a much more informative and functional overview of homicide offenses.

In this report, basic homicide data is focused on certain victim offender, and weapon characteristics. These characteristics provide us with a contrastive profile of homicide in the state of Colorado.

VOLUME AND RATE

The following data applies only to murder and non-negligent manslaughter and does not encompass negligent manslaughter. In 1990 there were 138 murders and non-negligent manslaughters that were reported and determined as actual. During 1990, murder and non-negligent manslaughter account for .0007% of all index crimes and .8% of all violent crimes. The 1990 statewide total decreased by 8 cases or 5.5%. Furthermore, one murder or non-negligent manslaughter occurred every 63 hours and 28 minutes. The frequency of incidences during 1990 was greatest in the months of March & December when 17 homicides occured each month. The months of January & October with 6 homicides each month, depicted the lowest monthly volume reported in 1990.

THE VICTIMS

138 persons were reported as victims of homicide by means of murder or non-negligent homicide in 1990. The male was more likely to be a victim, accounting for 73.9% compared to the female, accounting for 26.1%. By age, the majority of victims ranged between the ages of 15 to 45. The 20-24 age group accounted for the highest number of homicide victims, 18.8%. Analysis by race disclosed that of all victims, 79.7% were White*, 17.4% were Black, 2.9% were Indian and 0% Asian or Pacific Islander.

THE OFFENDER

In the area of known perpetrators, 156 persons were identified by one or more of the follo[illegible]aracteristics: age, sex, or race. The male represented 71.8% whereas the female represented 14.7%. In [illegible] of the cases there was no information available. Examination of known offenders by age revealed th[illegible]t number of offenders fell between 15 and 44. The offenders in the 15-19 year age bracket displayed the largest number of offenders 23.7% Offender analysis by race indicated that 63.5% were White*, 21.2% were Black, 1.3% were Indian, .6% were Asian or Pacific Islander and 13.5% were unknown.

VICTIM-OFFENDER RELATIONSHIPS

A study of victim-offender relationships revealed 5.1% were situations involving lovers triangles and 36.5% were situations where victims were killed by offenders who were acquaintances. Further analysis disclosed 26.3% of incidents involved strangers, 14.1% consisted of circumstances where no relationship could be established, and 7.7% were attributed to episodes between spouses. Instances involving family members accounted for 3.8% and the parent/child relationship represented 6.4%.

WEAPONS

During 1990, firearms were utilized in 52.9% of the homicides reported in which a weapon was identified, an increase from 1989. Within the firearms category, handguns were the predominant weapon representing a 84.9% involvement. Knife and cutting instruments represented a 20.3% involvement in all homicides. Personal weapons such as hands, fists, and feet accounted for 15.2%. Other dangerous weapons were responsible for 7.3% of the homicides, .7% of the homicides were attributed to asphyxiation and the remaining 3.6% was attributed to cases where the weapon used could not be definitely identified.

*White includes persons of Mexican or Spanish-American ancestry who are not definitely Indian or another non-White race as defined in the Uniform Crime Reporting Handbook.
